

Geronimo Trail Guest Ranch

The ranch is located just off the Geronimo Trail, one of the Scenic Byways designated by the state of New Mexico. **Accessible via mostly paved roads, and then gravel for the last 8 miles, we are 4 hours from either Albuquerque or El Paso airports, 2 hours from Truth or Consequences** traveling through high desert, rolling plains, and magnificent forests. NOTE: Even though our address is Winston, we are approximately 1.5 hours beyond this point.

***** Please be advised that GPS does not work to find our location as it may take you down unmaintained roads, so you need to print these directions and bring them with you! *****

Geronimo Trail Guest Ranch

General Directions:

1. Take Interstate 25 just north of Truth or Consequences (known locally as "T or C") to exit 83, and turn northwest on New Mexico route 181. Call us at 575-772-5157 to let us know you are on your way (you will lose cell service shortly).
2. 2.2 miles later, turn west on New Mexico route 52 toward Winston (28 miles). Watch for roadrunners, antelope, mule deer and buffalo along the way.
3. At Winston, Route 52 curves north for another 9 miles. This is open range, and it is common to have cattle grazing along the roadside; caution is advised, particularly at sundown.
4. At the intersection of route 52 and route 59, turn west onto route 59 and travel 31 miles to Beaverhead. (Don't be disturbed by the sign that says "No services for 121 miles." We'll be glad to host you.)
5. You will cross the Continental Divide along the way, then, at the meadow near the Beaverhead Work Station where the pavement ends, turn left onto a well-maintained gravel road. This is NM Route 59 west.
6. In 1/2 mile, NM route 59 turns to the right – DO NOT TURN – you will continue on straight towards the former Wall Lake, on Forest Road 150. This road also shows as State Route 60 on some maps. As you pass this intersection, you will see a sign for the Geronimo Trail Scenic Byway on your right.
7. Continue on south and at 7.2 miles south of the beginning of the gravel road, you will cross the bridge over Taylor Creek at the former Wall Lake (now filled in - looks like a meadow).
8. Continue on another 0.9 miles to the ranch, which will be the second gated drive on your right.
9. The ranch is located 8.4 miles south of Beaverhead, just a mile past the former Wall Lake. Watch for elk, wild turkeys and coyotes along this road. At the former Wall Lake, see if you can spot one of the several bald eagles which nest there from October through April.
